28 Years of
Excellence
and Experience

Who We are?

AST is a highly professional entrepreneurial group in services industry serving to copying, drafting & document management needs of small & large organizations in various sectors for the past 28 years. From zero level, AST has grown in multiple folds since its interception in early 90's & has grown in to a large organisation. We have several branches in UAE & now we are in Qatar for the past 3 years. Company plans to open up new branches in other GCC companies in the near future.

The Team

A group company wich works as a team both internally & with the client. We have a team of multi-disciplinary & experienced Engineers in different fields and are devoted to serve our clients. A 'Total Quality Service' is what we belive. Regardless of size, scope & complexity of the project, we would always love to serve our esteemed clients. AST's leadership, experience & innovative abilities assure clients of hassle-free project completions within the budget with all the state-of-the-art design & technology.

What We do?

We 'RENT' several office equipment's like Digital plotters, Engineering plan printers, photocopiers , binding machines... etc, without any investment from clients. In addition, we also provide services like copying, printing, scanning... etc. AST is the first company to introduce the 'Unique Renting Scheme' in UAE & QATAR. Our clients have found that this scheme is very economical & hassle free & most of our clients in Construction, Power & Engineering spaces have started implementing the same.

Making the MFP's think

Print Management Solutions

Providing scalable print system management solutions that enables company's and organisations to control cost, reduce wastage, increase the users comfort and postively effect the environment. The solution helps organisation to track and count every print, copy and scan on user, department, project and device level.
